King Square

As96 Sample Preparation Platform

An automated platform for laboratory sample preparation.

Technical specifications

Configuration	96-channel sample preparation platform
Dimensions	800 × 560 × 700 mm
Mass	80 kg
Transfer volume	1–1,000 µL
Interface	Touchscreen, barcode scanning and data logging

Product features

- Barcode scanning and internal records support sample traceability.
- The dual-arm design can coordinate sample-tube handling and liquid transfer.
- Closed-loop motion control provides position feedback.
